Subject: Enhancement of the rate of electric energy by the Light and Power Suppliers Ltd, Branch Athani.

undersigned complaint against the Electric Co Athani. For report Asst Engr (P.W.) 3/3

S I R,

We request you to go through the following few lines on the above subject and request you to consider the same favourably

The Light and Power Suppliers Ltd, Branch Athani, has been supplying energy --- electric energy, to this Athani Town since 1942 at the rate of six annas including surcharge, which was calculated at the are of 33½ % . That meant that the consumers had to pay @ annas eight per unit including all charges. The Company continued to recover the enrgy bill @ this rate till November 1949. And in that month, the Company enhanced the - rate of the electric energy without consulting the consumers and without hearing their objections. The Company arbitrarily began to recover @ the rate of annas twelve per unit, which - is illegal and exhorbitant, because the consumers cannot afford to bear that much burden. When asked the Company's Officers -- inform the consumers that as the Company is running at a loss it cannot supply energy at the old rates and that they have taken the permission of the Government and that the sanction of the Government has been alrady obtained to increased the rates. If that is the case, we are at a loss to know the policy of the Government . Government has notified that till the -- decision of the " Rating Committee, "which will be appointed to inspect and look into the management and account books of the Licensee, the Licensee has no right to increase the rate We think that no such " Rating Committee " has been appointed as yet for this Company and in the absence of such a Committee, the action of the Licensee is against Law and requires

to be seriously considered and punished by Government for the breach of Govt. order. Consumers are not to be punished for the loss of the Company; and also they are not liable for the loss of the Company. Mismanagement, unnecessary staff and many other grounds might have casued loss to the Company. The poor consumers have not taken the sole monopoly to maintain the -- Cpmpany and see that it is run on a frofitable basis. It is -- matter of surprise to note that no where in the State of Bombay or rather in the whole Dominion Of India, this rate, which has been fixed by the Licnsee is prevailent. The rate now levied by the Licensee is most unreasonalbe.

Secondly, the Licensee has recovered from all the consumers @ the rate of annas twelve per unit since November 1949 and as this action is illegal, we requset you to direct the Company or the Licensee to refund the exeess amount (already recover-ed) immediately to the consumers who are compelled to part with their well earned money.

In this connection, we request you to take note of the Govt. Press Note dated 10-12-1949.

As this matter concerns consumers, we request you to take most urgent & immediate action in the matter as requested.

Athani.

Civil Board, Athni

To

The Minister for Public Works,

Government of Bombay,

Secretariat, Bombay.

Subject:- Abnormal increase in the electricity energy charges by the licensee:

Sir,

This is to inform you that the Light & Power Suppliers Poona, Branch Athni, have been supplying electricity to Athni town since 3 years, at the rate of As. 6 per unit plus the surcharge at 33⅓ p.c. That rate was proper taking into consideration the circumstances and the condition of the consumers. But since November last, they have increased the rate to 12 annas per unit. This rate is abnormal and beyond the paying capacity of the consumers Athni is neither an industrial nor a commercial town where such abnormal ~~xxx~~ rate could be charged and sustained When the Government is supplying the required crude oil and other accessories at the controlled prices, there is no necessity for the linensee to enhance the rates.

The licensee contends that electrical energy cannot be supplied at a lower rate because the Company is running at a loss. But no trunk loss might have been incurred either on account of mismanagement or due to overpayment by maintaining uncessary and additional staff, the burden of which cannot be borne by the small centre like Athni

The Government has recently appointed a rating committee to enquire into the working of the establisment and inspect the accounts and then fix the standard rate of the energy. Till that committee decides one way or the other, I think that this Company has no authority to

enhance the rate and that which has been so increased is illegal. Sex

So, I request to apoint a rating committee for this company as well and enquire into the working of the Company and till the decision of the said committee the licensee should be asked to recover at the old rate.

an early compliance is requested.

Yours faithfully

President, Civil Board,

Athni.

To,

The Light and Power Suppliers Ltd
Branch Athni.

Sir,

We, the following consumers of electric energy supplied by you, wish to invite kind attention to the Press-note issued by the Government of Bombay on 10-12-1949. In accordance with the said Press-note, you cannot charge more than the rates (including Surcharge) prevailing on 30-9-1949. If you desire a revision of the rates prevailing on 30-9-1949, you are to apply to the Government for appointing a "Rating committee" under section 5.7 of the Electricity (supply) Act, 1948

Though this is the case, we are sorry to note that you are recovering the charge for the supply of energy at the rate of annas Twelve per unit which is illegal under the said press-note.

Hence it is requested that you should not charge us in future the rate of annas Twelve per unit but charge only annas eights (including Surcharge) per unit.

Further you are requested either to deduct the excess amount (recovered already illegally) from the future bills be preferred by you hereafter or to refund the same (excess amount) forthwith.

Further it is requested that the deduction or refund should be made within three days from the date of the receipt of this, failing which you shall have to pay interest at the rate of 6% P.A. on the same (excess amount) from the date of the receipt till payment.

An early reply is solicited

Dated 24-12-1949

NOTICE

This hereby notified that the bills of energy will hereafter be submitted to the Consumers in accordance with Schedule of Rates circulated on the 15th October 1949, in Conformity with Section 57 of the Electricity (Supply) Act, 1948, read with Schedule VI and VII of the said Act, and Consumers in general may pay the energy Charges as per the rates prevailing in the month of September 1949. This concession is extended to the Consumers in accordance with the recommendations made by the Press-note issued by the Government of Bombay, dated 10th December 1949. The Company will carry forward the balance as arrears, till the decision of the Government on the recommendations of the Rating Committee regarding the actual rates to be charged for the Supply of energy. The amount of arrears due from each consumer will be finally adjusted as per rates approved by the Government

The Consumers who pay their dues in accordance with the bills submitted, the additional extra amounts over the September 1949, rate, will be treated as respective deposits towards energy bill account and will finally be utilized as per rates that may be fixed by the Government

Re: Athni Electric License 1940

Adjustment of Rates in Conformity with Section 57 of the Electricity (Supply) Act 1948

Sir,

I have already forwarded the copy of the circular letter dated 15th Oct 1949, by which the necessary announcement regarding the adjustment of rates in conformity with section 57 of the Electricity (Supply) Act, 1948 was made. The copy of subsequent complaint from the consumers of Athni in general and a letter p33 from Mr. G.G. Hulkund, Pleader, from Athni is that connection is also enclosed herewith. I have further been given to understand that the consumers association from Athni have communicated to the Government in the matter and have requested the Government for referring the matter to the Rating Committee. pp 1-2

2. Government in the mean while have issued a Press-note dated 10th Dec. 1949 and in response to the said Press-Note I have issued a general circular notifying the Consumers at Athni a copy of which is also enclosed herewith p35.

3. I have the pleasure to state that, I have already applied for the appointment of a Rating Committee to examine the accounts and to fix the rates in conformity with Sec. 57 of the Electricity (Supply) Act in the case of Palghar-Wavli Electric License, 1939. pp 49-52 57/48(b)

Copy of letter dated the 20th July 1950, from Messrs. Light and Power Suppliers, Ltd., Gumaste Building, 180,Budhwar Peth, Laxmi Road, Poona, 2, to the Electrical Engineer to Govt. P.W.D., Bombay. Re: Rates for the supply of energy at Athni.

Reference: Your letter No.L.101/3526 dated the 21st June 1950.

Yes, the Company is receiving the bills amount as per the new adjusted (enhanced) rates, as per our circular dated 15-10-1949. The actual bills for the month of November 1949 were distributed to the consumers in the first week of December 1949. Thereafter, the Government issued a Press Note on 10-12-1949, stating that the Licensee should recover bills at the rates prevailing in the month of September 1949. Giving due respect to the Press Note, the Company issued a circular stating and informing the consumers to the effect that the Company will be billing the consumers at the adjusted rates and will accept the bills at the September rates from the consumers who desired to do so. It is clearly stated in the said circular that the consumers who pay the energy charges at the new adjusted rates by the Company, amounts to the extent of the September rates will be credited to the consumers' energy account and the remaining amount will be credited to the energy deposit suspense account against each consumer's account till the decision of the Rating Committee, and will then be adjusted as may be directed by Government. This clearly shows that there is no sort of misrepresentation on the part of the Company, wherein we specifically say that the above arrangement has been arrived at to give due respect to the Press Note issued by the Government.

In the case of consumers who make their payment at the September prevailing rates, the amount will be accepted as part payment of the bills submitted to them by the Company, the balance amount being carried as arrears against the respective consumer's account. The said arrears amount to be adjusted as per the decision of the Rating Committee and the respective Government orders in that respect in due course of time.

Under the circumstances, we have only to state that amounts are received as may be paid by the consumers of their free will and the respective adjustments are made as stated above.

We.....

We have further to state that, in case any of the consumer has wrongly paid any excess amount prior to our circular dated 24-12-1949 to the Company in this matter and if he so desires and applies to the Company to that effect, the Company will have no objection to return the said amount to the said consumer or adjust it in his future bills, if he so desires, and show the arrears amount against his respective bills till the decision of the Rating Committee.

Hope the above will clarify the matters.

======

" True Copy "

Head Clerk to the
Electrical Engineer to Govt.

Below U.O.R.No.S.60/68/26535 dated the 15th June 1950, from Government in the Public Works Department.

No. L.101/6097 of 1950.

Bombay, 25th July 1950.

Returned, with compliments.

2. The matter was taken up with the Supply Company and copy of its letter in this connection is enclosed.

3. It is observed from the Company's letter that the Co pany has given option to its consumers to pay the bills at th rates in force on 30-9-1949, and in their case the balance du from them at the increased rates is being carried forward as arrears against them, which the licensee proposes to adjust after the fixation of rates by Government on the recommendations of the Rating Committee. Similarly, in the case of the consumers who pay the bills at the enhanced rates, the excess paid over the rates in force on 30-9-1949 is being credited t the accounts of the consumers concerned. It seems that, so long as the licensee has agreed to recover the bills at the pre-increase rates, the arrangement made by the licensee cann be objected to, as in effect it is in consonance with the Pre Note issued by Government.

E I Bs.(1) P.W.D.

Submitted with reference to the proceedings on pp. 29-45 ante.

2. From the subsequent letter dated the 8-5-50, p 37 received from the licensee and the report of the p43-ur Elect. Engr it will be seen that the supply Company has given option to its consumers to pay the bills at the rates in force on 30-9-49, and in their case the balance due from them at the increased rates is being carried forward as arrears against them, which the licensee proposes to adjust after the fixation of rates by Govt. on the recommendations of the Rating Committee. Similarly, in the case of consumers who pay the bills at the enhanced rates, the excess paid over the rates in force on 30-9-49 is being credited to the accounts of consumers concerned. The same arrangement has been made by the licensee at Palghar Navli also and may not be objected to as in effect it is in consonance with the Provisions Note issued by Govt. S Slip A

3. The licensee seems to await the decision of the Rating Committee for Palghar Navli before applying for a Rating Committee in the case of Athni. The report of the Rating Committee for Palghar Navli has since been received and is under seperate consideration.

4. The licensee may be informed as per draft put up for approval.
